

Market Your Planet

for Prime Interplanetary Real Estate

Your team will be researching a planet that you will market to potential investors of the future. What makes your planet unique? Why would your planet be a place to visit? Your team will create a 2-3 minute video commercial using Animoto.

Gathering Information

We will visit the library so that your team can collect data and images about your planet. You must include these facts:

atmosphere	weather	rings	moons	sky color
wind speeds	satellites	origin of name	climate range	inner/outer orbit
composition	length of day	length of year	gravity?	distance: sun?
uniqueness				

Remember to be creative, but stick to the facts.

Also don't forget to follow copyright law, make sure to study/view the links in the copyright link on the wiki.

Forms are available to help you keep organized. Print them and submit with your final presentation.

Good Luck!
